Overview

ZerOS Wing can be added onto any ZerOS console, or Phantom ZerOS - the offline PC editor, to increase the number of channel playback faders available.

ZerOS Wing has been designed to be simple and quick to setup and use. There are no settings, no configuration and no difficult connections. Just plug in via USB and any ZerOS console is instantly upgraded.

A single button switches quickly between 'Channels' and 'Playbacks' at any time, and the 'Page Up' and 'Page Down' buttons are used to either switch between all patched channels on the console, or each page of playbacks. When multiple wings are used, simply setup each Wing onto a different page.

'Fader Function' will operate slightly differently on some ZerOS consoles, as shown by the table on the following page. Phantom ZerOS will match whichever console is chosen when the software is loaded.

Multiples of 24

Each ZerOS Wing has 24 multifunctional faders and 24 flash buttons. Multiple ZerOS Wings can be plugged in at any one time, increasing the hands-on operation of any ZerOS console.

Multifunctional

Faders on ZerOS Wing can be switched between 'Channels' and 'Playbacks' at the touch of a button. They'll even automatically switch when you're ready to record a cue.

Quick Setup

Wings can be plugged into any ZerOS Console, or laptop running Phantom ZerOS, by simply plugging in a USB cable. With the use of the 'Fader Function' and 'Page Up/Down' buttons, setup is complete.
